Muslim minority come under BC-E category. He said that while allotting housing sites to the people under below poverty line, Muslims should also be considered for distribution of sites. About 10 per cent of sites in rural and 20 per cent in urban areas have to be allocated to them.

issue of registration which will be directly supervised by the vice-chairman, Mr Kona Sasidhar.

The drive will be held between 10 am and 1 pm at the Vuda office in Visakha-patnam on October 17. Mr Sasidhar said that allottees of housing and plots in layouts the Vuda side on submission of all relevant documents and clearing payments against their allotments. All concerned heads of the wings and staff will be available in the drive and the participants will have the opportunity to meet him, he informed.

port size photograph, receipts in support of the payments cleared and a sale deed document obtained from the Information Centre of the Vuda. He urged all applicants to keep the documents ready before the drive day to enable the process to be completed

pay all the remaining instalments at a time and get the registration can also avail the facility, he informed.

Registration for all the housing projects of the Vuda, except Haritha Housing Project will be attended in the drive, Mr Sasidhar said.

Differently-abled serves others with gusto

DC CORRESPONDENT
VISAKHAPATNAM, OCT. 12

Every obstacle is an opportunity — Dilip Patro, software professional and differentially able philanthropist is living proof of this adage.

Paralysed waist downward after an accident in 1997, Patro has not only pulled through but is helping the physically challenged in the area to literally stand on their own feet. His organisation 'The Ability People' was started the same year to better conditions for the disabled.

After the accident Patro truly realised the pain of being physically challenged. "I was so desperate when I heard that I would never recover full use of my limbs and would have to move in a wheel chair, I decided to reach out to others in the same condition. At that time quality prosthetics and aids were not available but now I am able to supply up-to-date calipers and artificial limbs free to the people who have restricted mobility," he says.

The Ability People tied up with Mobility India of Bengaluru which is a national organisation that provides support those serving differentially able

Dilip Patro

communities across the country. Mobility India identified three organisations in Vizag and Vizianagaram district who work for the physically challenged and deprived.

The association has been conducting different programmes like distribution of wheel chairs; mobility aids, and provides capacity building trainings for people with disabilities.

"We identified The Ability People as a potential organisation and extend our technical support to them. They have been providing mobility aids to the needy along with maintenance facility," said Mr Sama Raju, Programme Manager of the Mobility India.

The main aim of the association was to produce the aids locally apart from service facility at a cheaper cost. They are ready to give free maintenance to the poor and needy with the sponsorship of other agencies. Mobility India appointed two trained technicians here to do the job.

A total of 25 persons with different loco motor disabilities have received the aids along with practical training to make use of the material. R. Applanaidu, 60, of Pisini, Srikakulam district whose left leg was amputated was given the mobility aid. So was P. Santoshini, 17, of Pathapatnam, Ranasthalam mandal, an Inter second year student who lost her right leg up to knee a decade ago owing to infection.
