Hon'ble Minister Visits The Ability People

We were honoured to welcome Sri Mandipalli Ramprasad Reddy, Hon'ble Minister for Youth, Sports and Transport, Government of Andhra Pradesh, to The Ability Rehabilitation Center. During his visit, he interacted with our team, toured our rehabilitation facilities, and learned about the services we provide to persons with disabilities. Appreciating our efforts towards inclusive rehabilitation and empowerment, the Hon'ble Minister assured his support for our mission and encouraged our continued work.

Strengthening CSR Partnerships

The Ability People welcomed Mr. Konchada Kishore Kumar, Executive Council Member (ADM), Infosys, to our rehabilitation centre as part of the CSR engagement process. He toured our facilities, interacted with our team, and observed our rehabilitation programmes, marking an important step towards a meaningful partnership.

Strengthening Healthcare and Rehabilitation with Cnergy Group

As part of our Chennai visit, the team met with the Managing Director and Head of Marketing at Cnergy Group of Companies to discuss advanced rehabilitation solutions for our Visakhapatnam office. The leadership warmly welcomed the team and introduced their range of healthcare and rehabilitation equipment. The team also visited Cnergy's client, Sailom Physiotherapy & Rehabilitation Centre, where Dr. Clement demonstrated the practical use of these technologies, providing valuable insights to strengthen our rehabilitation services.

Monthly Impact Highlights from The Ability People team

Empowering Students Through Real-World NGO Exposure

Students from various colleges and universities visited The Ability People as part of their academic projects to gain firsthand exposure to the functioning of a non-governmental organization. They interacted with our team and beneficiaries, learning about our rehabilitation programmes, community initiatives, and the impact of inclusive services. Curious to understand the journey of an NGO from the ground up, they explored how projects are conceptualized, funds are mobilized, resources are managed, and programmes are implemented. The visit fostered meaningful discussions, practical learning, and a deeper appreciation for the role of NGOs in creating sustainable social impact.

Highlights from the June Board Meeting

As part of its commitment to transparency and effective governance, The Ability People regularly conducts Board Meetings to review organizational progress, evaluate ongoing programmes, and plan future initiatives. During the meeting, Chairman Dr. Surya Prakash Garu generously donated an active wheelchair and a foot massager to strengthen the organization's rehabilitation services. His thoughtful contribution reinforces our mission to provide quality, accessible care and improve the lives of persons with disabilities.

Rotary New Board Orientation 2026

Leadership and continuous learning took center stage at the Rotary New Board Orientation held at Hotel Keys, led by Rtn. PDG M. Veerabhadra Reddy. Representing The Ability People, our Director attended the session alongside Rotary leaders to gain valuable insights into effective governance, teamwork, and service. The orientation provided practical guidance for the upcoming Rotary year while reinforcing the importance of visionary leadership, collaboration, and lifelong learning in creating meaningful and sustainable community impact.

Services to the remote tribal communities

Introduction

To improve access to rehabilitation services in remote tribal communities, The Ability People conducted a series of Free Disability Assessment Camps across the Alluri Sitarama Raju (ASR) District. Organized with the financial support of Bharat Dynamics Limited (BDL) and in coordination with the District Administration and Health Department, the initiative connected persons with disabilities to expert rehabilitation assessments, assistive device evaluations, and follow-up rehabilitation services.

District-Wide Outreach

Across Paderu, Munchingiputtu, Araku, and Ananthagiri, over 200 persons with disabilities participated in our assessment camps. Many were living with cerebral palsy, muscular dystrophy, stroke, spinal cord injuries, amputations, and other neurological conditions without access to specialized rehabilitation. Through comprehensive assessments, our team identified rehabilitation needs and connected beneficiaries with appropriate therapy, assistive devices, and essential follow-up support.

Programme Highlights

- 200+ Beneficiaries Assessed
- 4 Camp Locations Covered
- Free Disability Assessments
- Assistive Device Evaluations
- Support from Government & BDL
- Rehabilitation Services Delivered

AI for Social Impact (AI4SI) Masterclass, IIT Madras

Our Director and a team member had the opportunity to attend the AI for Social Impact (AI4SI) Masterclass at IIT Madras Research Park, organized by Shooting Stars Foundation, Right Dots, and partners. The workshop provided practical insights into leveraging AI for greater social impact. Sessions covered prompt engineering, AI agents and automation, emerging AI technologies, and responsible AI governance. A proud moment for our team was receiving recognition for the Best CSR Proposal Prompt. The experience reinforced a powerful message: AI is no longer just a digital skill; it is a life skill. We are excited to integrate AI-driven solutions to enhance efficiency, accessibility, independence, and dignity for the communities we serve.

Yoga Beyond Limits: Celebrating International Yoga Day

To mark International Yoga Day, The Ability People, in collaboration with the Rotary Club, organized Yoga Beyond Limits, celebrating the importance of physical and mental well-being. The event brought together Rotary members and our dedicated staff for a guided yoga session, encouraging mindfulness, fitness, and a healthy lifestyle. The celebration also reaffirmed our shared commitment to promoting holistic wellness within our organization. By embracing the values of balance, resilience, and inclusion, we continue to strengthen our mission of empowering persons with disabilities through compassionate and impactful service.

Free Rehabilitation Services at TAP

Restoring Independence Through Active Rehabilitation

A spinal cord injury can change a person's life in an instant, affecting mobility, independence, employment, and emotional well-being. While medical treatment addresses the injury, rehabilitation is what enables individuals to regain confidence, rebuild daily living skills, and return to society with dignity.

Starting 1 July, ARC will provide **free** rehabilitation and therapy for the **first eight** eligible beneficiaries holding a White Ration Card, ensuring that financial limitations do not prevent access to quality rehabilitation. The centre also offers treatment at affordable rates for all other individuals requiring rehabilitation.

Who Can Apply?

The programme is designed for:

- Individuals with spinal cord injuries sustained within the last 12 months.
- Persons living with quadriplegia.
- Women and children (0–16 years) with spinal cord injuries.
- Individuals with Grade I & II pressure sores.

Services Offered

- Residential rehabilitation & personal care
- Physiotherapy and occupational therapy
- Mobility, gait & wheelchair skills training
- Bladder, bowel & pressure sore management
- Strength training, yoga & adaptive sports
- Psychosocial counselling & family support
- Independent living skills & community-based follow-up

"Together, we empower persons with disabilities through active rehabilitation, independence, and inclusion"
