Reaching out to the specially-abled

-  Rani Devalla

The Ability People launches a rehabilitation centre

With a view to providing an active rehabilitation therapy for those bound to the wheelchair, Dilip Patro, peer counsellor of The Abil launched an Ability Rehabilitation Centre at Dabagardens recently.

A skill development unit with a dozen PCs and a rehab in-patient unit with 10 beds were also inaugurated as part of the initiative.

Soon, the centre will have a psycho-social counselling unit that caters to those who need a range of therapies.

An assistive technology centre that helps the specially-abled to be independent and prosthetics and orthotics units are also on the c

“The objective is to help those suffering from acute spinal cord injuries, loco-motor disability, and cerebral palsy, and offer them a g therapies. At present, the centre has 470 registrations and we are planning to accommodate them in different batches,” says Mr. Dil

People from different walks of life have come forward to support the cause of providing holistic rehabilitation services.

ACC Limited has provided fans and lights and Rotary Club Visakha Port City donated Rs.70,000.

“We are planning to offer technical support. Each person’s need is different. Based on the assessment report post-screening, we will providing a developmental aid with twin device adjustment that can help the specially-abled sit or stand,” says Soikat Ghosh Mouli director (technical) of Mobility India Rehabilitation Research and Training Centre, Bengaluru.

Executive director of Miblou, a Switzerland-based voluntary organisation that supports physically-challenged persons, Marika Mile extended a financial assistance of Rs.6 lakh to the rehabilitation centre. Tata Elxsi has extended its support to the skill development
